

# Student iPad

Introduction to How We Use Them

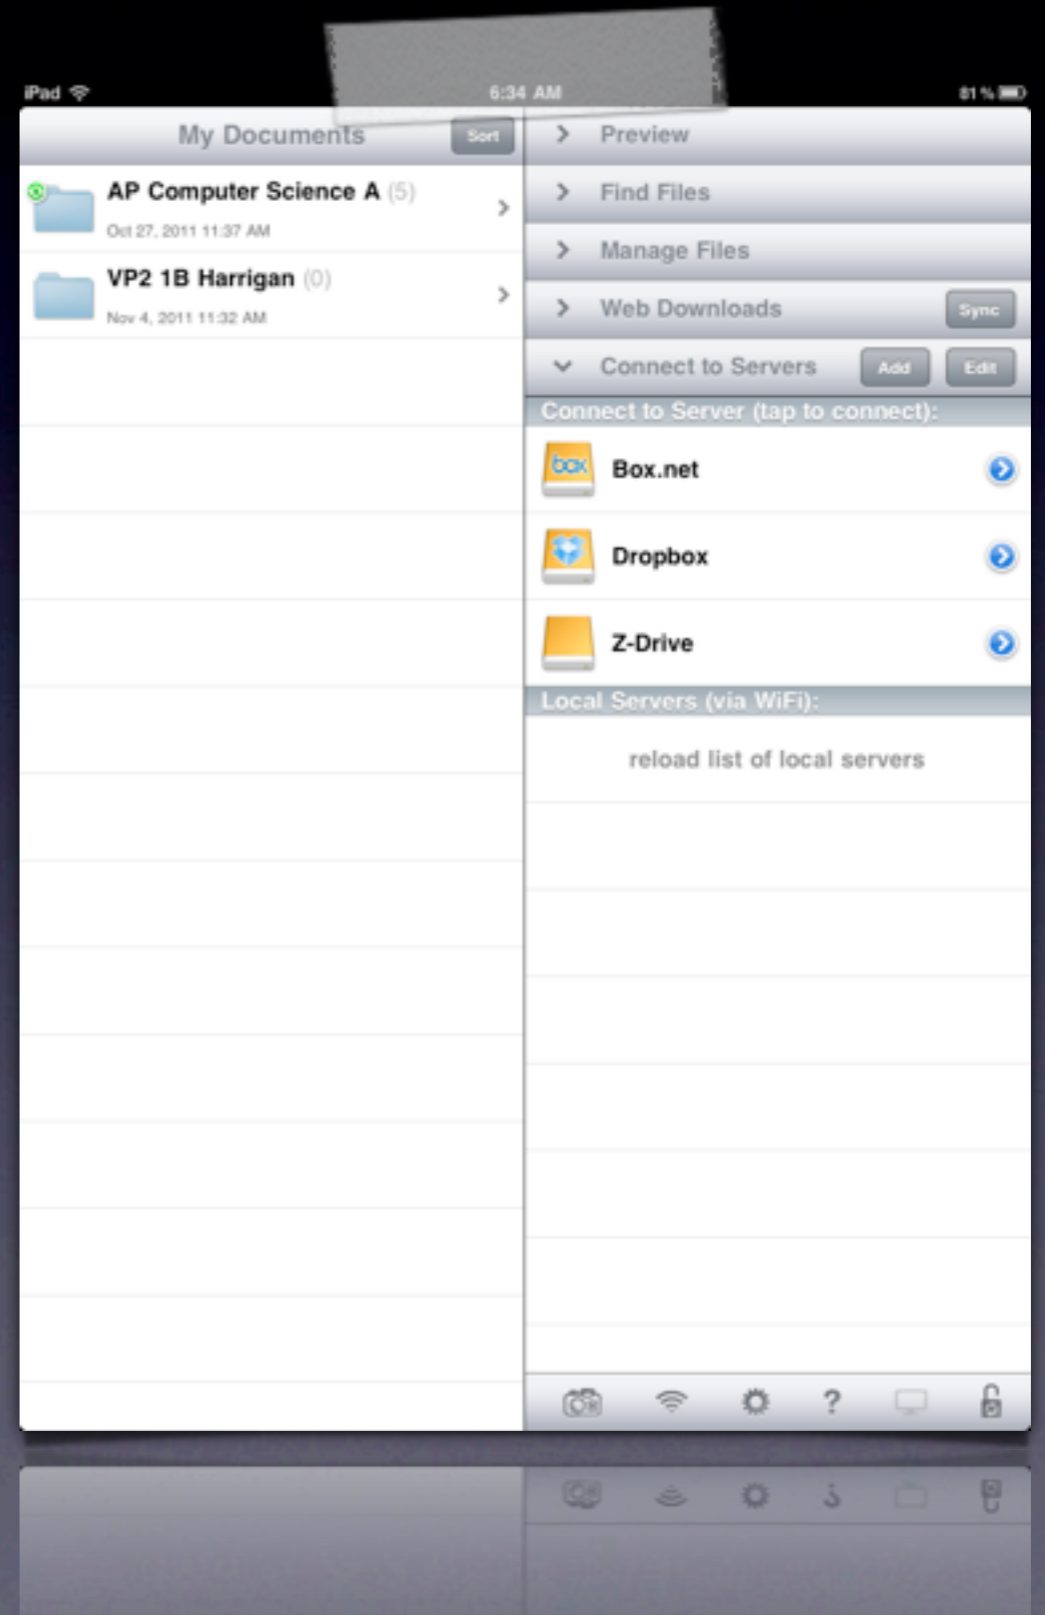

# Organization

- The iPad makes a student a lot more organized than previous
- Apps like Pages keeps one very organized, much easier than a binder & just throwing paper inside.

# Paperless World

- With apps like GoodReader, teachers can now share notes and even grade your tests and projects via the iPad and just send your grades to you. All with a push of a button.

# Endless Opportunities

The Apple iPad
