

# HOW TO CONNECT TO WIFI ON iPad

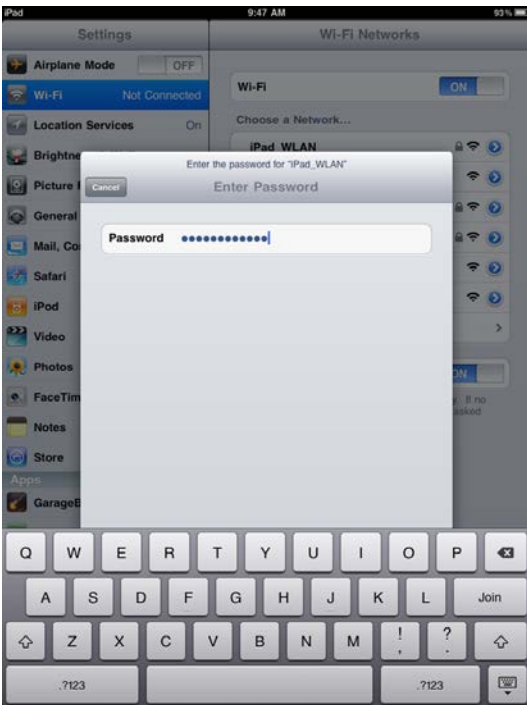

1. Touch Settings- To get into the Wifi Settings

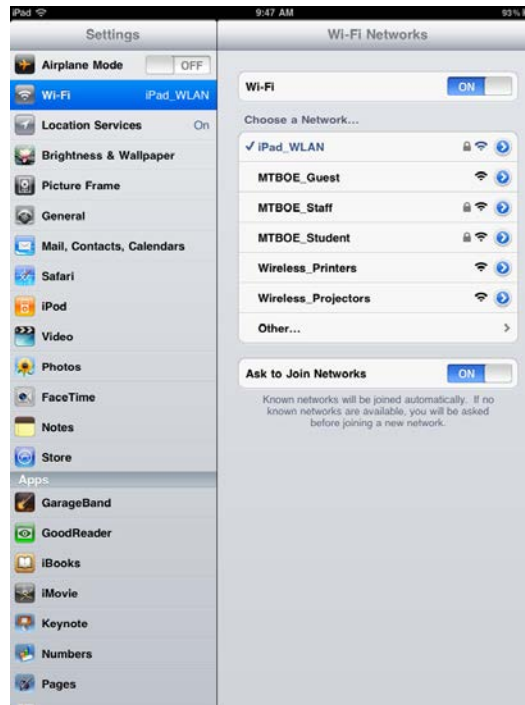

2. Select the Wifi option.

3. Wifi will automatically search for wireless networks in the area.

4. Select the name of your wireless

5. If the wireless network is secured it will require a password. (You may not always be asked to put in a password)

6. When you successfully connect to a network, the network you have selected will become blue and have a check mark next to it.
