

2. Click the “+” Sign

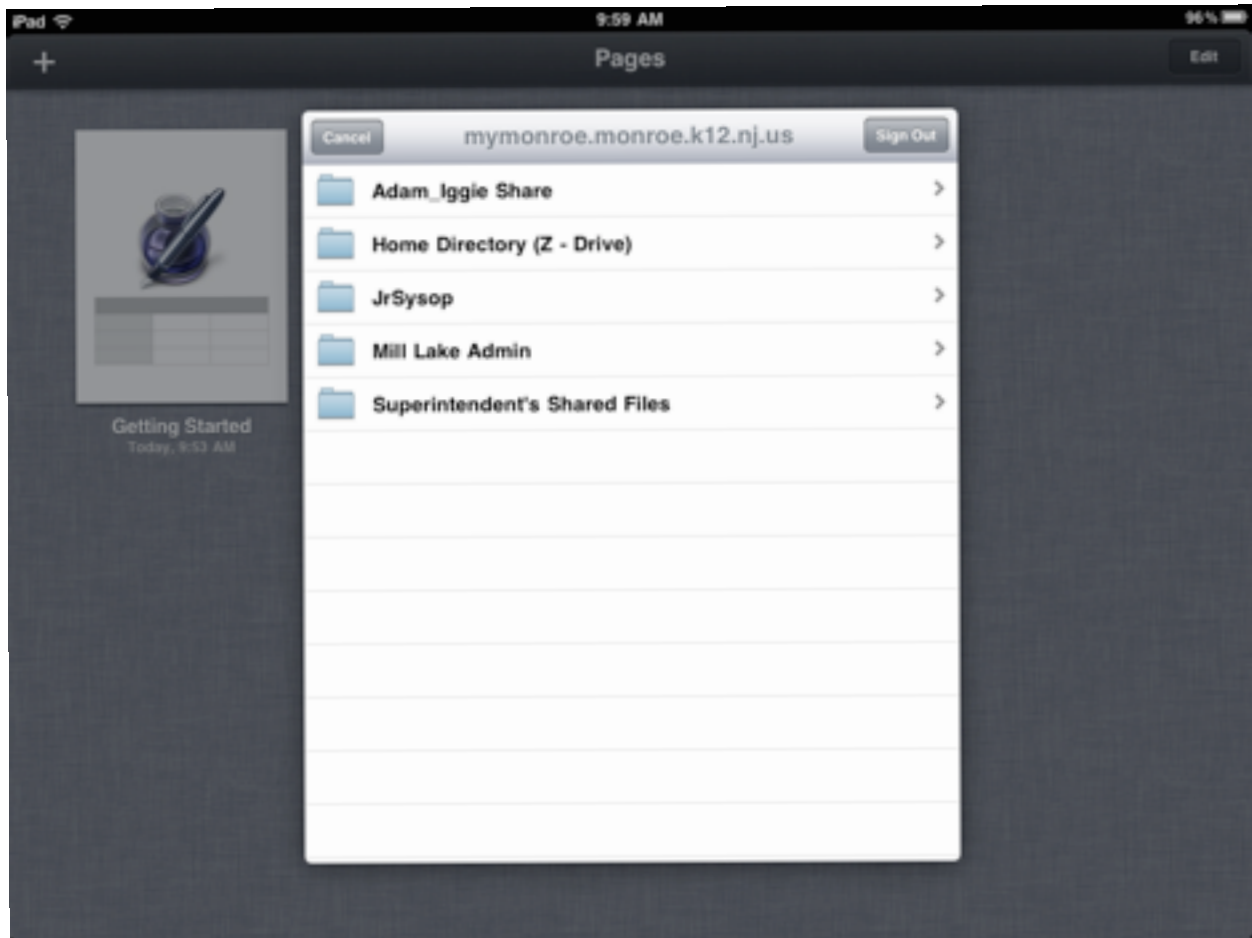

3. Select Copy from WebDAV

4. Enter Server Address : <https://mymonroe.monroe.k12.nj.us/webDrive>
4. Enter User Name : rwashing
5. Enter Password : *****

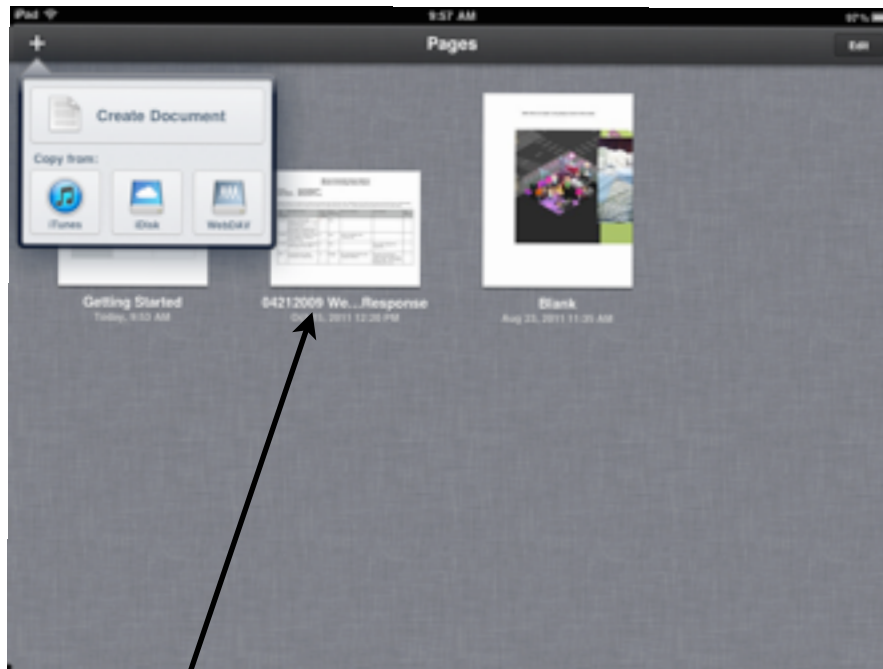

5. After successfully authenticating into the server, you will be presented a list of folders that you can access.

Select the folder and file that you want copied to your iPad.

To copy a file from your iPad to your Z drive or other shared folder, start the app that can read the file. For our example, we will use Pages.

Click the file to open it.

Once the file is open, click the wrench icon and then the Share and Print Selection, followed by Copy to WebDAV.

The screenshot shows an iPad interface with a document titled "04212009 Weekly Technology Status Report Response". The document content includes the following information:
